

For *Creativity and Innovation* section, from the *3rd International Conference for Doctoral Students – IPC 2017*, the following informations are necessary:

*Creativity and Innovation* section has *inter/multi-disciplinary* character, due to the broad spectrum of topics accepted (with the mandatory requirement to be own creative/innovative contributions). The general topic is: *creativity and innovation/inventics* in a variety of areas where are developed new techniques, methods, processes, new approaches (for example: *engineering, design, computer science, economy, marketing, management and others*). In applied sciences, the creative contribution of a paper generally relate to innovation or inventics.

For this section there are two phases of evaluation, in following order: **presentation** at the conference, and **then publishing** the scientific paper.

#### *The Conference – 1st phase*

- There is necessary a PowerPoint presentation outlining the IDEA and main points of the paper, no matter the character of presentation: theoretical analysis, a synthesis, experimental research or another. For this phase, must be completed and sent on the editorial office ([redactie.creativitate@gmail.com](mailto:redactie.creativitate@gmail.com) or [redactie.creativitate@unitbv.ro](mailto:redactie.creativitate@unitbv.ro) ) the *application form* (the title of presentations + a brief summary of 250 words). **The deadline was extended until 14th May 2017.** Members of the organizing team will contact you (by e-mail) with useful informations both to prepare the presentations for IPC 2017 and to prepare the paper for publication.

#### *Publication – 2nd phase*

- Papers presented at IPC 2017 will be edited for publication after the conference. Please, follow the deadlines which will be communicated!  
Accepted articles will be published in full text (until the end of 2017) both online and in electronic format (on CD) in the special edition of the *Creativity and Innovation Journal* (indexed BDI), within IOSUD-UNITBv, ISSN 2537-5997, Vol. 9-2017, Publisher *Transilvania University of Braşov*. The papers will be written in RO&EN by romanian authors and only in EN by foreign authors.

This system, commonly used in previous years, confirms that discussions at the conference contributes, often substantially, to improving the quality of the paper submitted for publication. For PhD students, especially for those who are in the first year of study, the system contribute and to a useful initiation for presertation & publication activity imposed by the doctoral program.

Registration form, including the template for writing articles, can be found by following the link: <http://www.unitbv.ro/creativitate/conferences.html>. For any other information please contact us any time at the editorial office.

Team C&I,

Prof. dr. eng. Şerban BOBANCU

Pd. dr. eng. Ramona Elena DUMITRAŞCU
